

Careers Talk

GRADUATE JOB MARKET

All students in Year 11 and Sixth Form and their parents from schools across the OX14 Learning Partnership are warmly invited to attend this fascinating and insightful talk about the state of the current graduate job market.

It is well-known that competition in the graduate job market is fierce and that you need to stand out. But how? What skills can you start building now while you are at school and how soon should you start graduate job hunting once you have arrived at university? All this and much more will be discussed giving you practical ideas for the coming years.

Our Speaker:

James Darley

Founder and CEO
Transform Society

With more than 23 years' experience in graduate recruitment, James is widely recognised as one of the leading figures in the sector.

For 13 years he was Head of Graduate Recruitment at Teach First. Under his aegis, Teach First reached #2 in the Times Top 100 of graduate employers and became the largest single recruiter of graduates in the UK.

Over the past 8 years James has helped to set up other leading public sector graduate programmes (Frontline, Police Now, Think Ahead & Unlocked) and now runs "Transform Society" where he is supporting schools and universities "to inspire a generation towards public service" and ensure the countries future leaders have experienced inequity at the grass roots level, in and outside of public service.
